

Dear Property Investor,

Welcome to Real Property Matters (Australia) Pty Ltd (RPM) and thank you for the opportunity to provide you with some information to assist you with the management of your property investment needs.

Our team of Building Economists and Cost Consultants specialise in providing you the property investor with all the financial tools necessary to maximize your property investment return. We can assist you in maintaining the property to the condition required to enhance any potential growth and attract tenants. In the event of mishap or natural disaster we can ensure your investment is adequately protected from any tragedy threatening your future financial goals.

We cater for your present needs and assist you to plan for the future.

## Insurance Replacement Valuations

Identify the true value of your investment property. Our valuations are based on current market development rates. Does your insured amount take into consideration the effect of inflation, professional fees, delays in construction removal of debris etc?.

Take advantage of significant cost savings when commissioning multiple reports at the same time.  
"All fees tax deductible"

## **"Pay the appropriate amount of Insurance - no more no less".**

Don't jeopardise your financial goals through inadequate insurance.

## Online Report Access

Through a secure online portal we are able to store your report information allowing you to access this information as required. For further information on the Online Report Access and our services please refer to [www.realpropertymatters.com.au](http://www.realpropertymatters.com.au)

**RPM GUARANTEE the first year's depreciation claim on the investment property will exceed our fee otherwise the Tax Depreciation Schedule is provided free of charge!**
